Range News—Nancy Tidwell

FEBRUARY 2015—The shortest month of the year and by the time you get this it will almost be March. We have the paint party for the Pow Wow happening on Saturday February 28 at Coopers RV garage at his place. 6400 Gina Court 93308. It starts at 9 a.m. Paul will have the heaters going if necessary. The guys will get together on Wednesday (at the same place) to glue

the targets. It's important that we get club member participation at the paint party otherwise our dedicated overworked club members will have to take them home and paint them in their spare time.

Paul will even provide the painters with some nourishment. For those of you who do not have a hunters license or who have kids without one there will be a hunters education course at the club house on February 28 from 8-5. I'm assuming just go to the club house at 8. Call Jed for more information.

Notes from the Editor—Nancy Tidwell

FEBRUARY- We used a new scoring system at the 3D shoot, called ASN. Archers Scoring Network. The program is very easy to use and the scores are posted on line once I get to a wireless service. There was a "hiccup" this time around where our scores were synced but didn't get on the internet but the creator of the

program fixed the link and all should be good for the Pow Wow. To look at the scores from the 3D you only have to go to the website, www.asncs.cloudapp.net the results of the shoot are posted. I will make sure the website is written on the flyer for the Pow Wow so archers can later go online and find the results.
